QUEER HAPPENINGS.

Cows a Storm Gauge—Spiders for Companions—A Mighty Queer Watermelon.

A Bucks county, Pennsylvania, man has just ended a lawsuit of forty-two years standing, and recovered six cents damages.

There is a young mother in Portland, Or., whose age is but 12, weight 85, yet her infant son weighed nine pounds at his birth.

A large bird at Keokuk, Iowa, darted swiftly downward in its flight, and striking a lightning rod, the iron run through its body, and it remained impaled, fluttering and struggling until death came.

A woman in Marshall county, Kansas, who is enjoying her fifth husband, lost her first two by hanging through vigilance committees, a third was sent to the penitentiary, and the fourth committed suicide.

As Jared Diegman was shaking \$1,500 in gold under the nose of a steam tug owner on the Detroit river, endeavoring to tempt him to take that amount for his boat, the tug struck a steamer and the glittering gold was the property of the fishes.

A Wisconsin cow with a persistent cough that baffled the skill of a veterinary surgeon to cure died, and upon opening her windpipe to discover the cause of the irritation there was found in the upper part of the lung a live striped frog of ordinary size.

Eleven children at four births was the feat of Mrs. Scannel Hickson, of Shamrock, Mo. First birth, three; second and third, two each, and at the last interesting occasion there were four, all the latter being alive and doing well. Ten out of the eleven are alive.

In Richmond, Va., an old colored woman has been going to the depot daily for many years to meet the incoming trains, looking for a letter containing \$25. After the war she said the washing for a soldier, and when he went away he declared that he would return and bring the money or send it in a letter.

An event probably without precedent in railway annals has just happened at Provins. A passenger train leaving Paris at 8:30 P. M., arrived safely at its destination, but in getting down to the passengers out of the cars, the guard was astonished to find neither passengers nor passenger cars. They had forgotten to hook the cars on at Paris.

While riding horseback, John Eller of Alden, Iowa, saw coming from the sky a ball of fire, apparently about the size of a barrel of flour. He was paralyzed with fear, and saw the globe strike the head of the animal he rode, when he fainted. Upon coming to his senses he found that the horse was dead, the head of the animal being severed as if by a red-hot iron.

The queerest companions for a man are those of an old man in New Orleans. He has a mania for spiders, and in his rooms are more than 500 of every shape and color. The ceilings are hidden by the webs that they have spun. Occasionally the old man throws a handful of flies into the webs, and is greatly delighted at seeing the spiders seize their struggling victims.

An aged and wealthy Milwaukee widower found a wife by a queer method. In a coffee-grinding mill in Chicago a female packer placed in several bundles of coffee a card saying that any gentleman matrimonially inclined might address her. This widower found the card while preparing his lonely breakfast after a quarrel with his housekeeper, and now the Chicago girl is Mrs. —

WICKEDNESS CAUSED BY DISEASE.

Dr. Gorton, a distinguished American medical writer, in a work on the "Medical Aspects of Crime," asks:

Who among the close observers of medicinal actions does not know the efficacy of sulphur in contumacy? Of chamomilla in a fretful, peevish disposition? Of belladonna in temper disease? Of cannabis indica in hallucinations? Of arsenic in drunkenness? Of china in gluttony? Of anacardium orientale in cruelty and profanity? Of hyocyamus in jealousy? Of nuxvomica in maliciousness? Of sepiia in licentiousness? Of stramonium in cowardice? Of opium in deficient imagination? Of pulsatilla in minds morbidly burdened with piety, etc.?

He also declares his confidence in sulphur as "a remedy for sin, original or acquired," and tells us that "common salt is certainly one of nature's great sin deterrents and moral prophylactics."

Although people have learned to look with suspicion upon the much abused plea of insanity as an excuse for crime, yet it is certain that many crimes have been committed through causes that could be traced to mental or physical disease. Thus Dr. Maudsley says, in his famous work on "Responsibility in Mental Diseases:" "There is a class of them (criminals) marked by defective physical and mental organizations; one result of their natural defect, which really determines their destiny in life, being an extreme deficiency or absence of moral sense." Instances are given in support of this general statement. In one case excessive profanity was found to be due to softening of the brain. A Christian of exemplary life became grossly immoral through the growth of a tumor at the base of the brain. Avarice was in one instance caused by jaundice. Dr. Maudsley further states that many criminals "would go mad if they were not criminals, and they do not go mad because they are not criminals."

Considerations like these should make us charitable towards the erring. When we see a man backsliding we should consider whether his fall from grace was not due to a sine physical ailment. Oscar Tharp may have been moved to embezzle Evans' flock of sheep by a softening of the brain; Dan McCarty may have stolen Holt's rifle owing to something wrong in his liver.

Yet, however much our individual judgments of criminals may be tempered by the thought that disease may have been the cause of their criminality, it would be dangerous to give that consideration much weight in courts of law. If jaundice makes a man a thief, let him be punished for his jaundice. Society cannot afford to have jaundiced men at large and stealing goods with impunity.

That there are often pathological reasons for sin is a scientific fact which may be taken into account with advantage in theology. Who can reckon how many sinners may have apparently lost salvation through some physical cause, and thus not have been morally accountable?

TRIAL BY ROPE.

Mrs. Meierhofer, and Lammon, her paramour, were hanged in Newark, N. J., last week for the murder of the woman's husband. They were convicted on circumstantial evidence, and it was doubtful if both could be guilty. On the day of execution, the District Attorney stood by the gallows with two revolvers in his pocket: one for the woman, in case the man confessed and declared her innocent; the other for the man, to be used if the woman confessed and declared him innocent. The woman was hanged first. To the last she protested herself innocent and the man guilty. The man was then executed. In his last moments he affirmed his innocence and charged the woman with the crime.

This is a most extraordinary case of capital punishment. There is strong ground for the belief that one or the other of the condemned was innocent. A New York paper aptly heads its comments on the affair: "Trial By Rope."

FUTURE PUNISHMENT.

The discussion of the doctrine of future punishment is not confined to Reno. All over the land the subject is receiving attention. There seems to be a growing tendency to discuss religious topics in the columns of the daily press. Certainly, religious topics come within the legitimate scope of a newspaper. Nothing that concerns man is beyond the sphere of journalism. We may look for a general and free discussion in the newspapers, before long, of everything that can throw light upon the great problem of life. In relation to the doctrine of damnation, the following from the N. Y. Sun of Jan. 8th will be found interesting:

"The Rev. Dr. Fowler of the Methodist Missionary Society has provoked criticism by affirming that 600,000,000 of heathen are doomed to suffer the inconceivable and never-ending torments of hell unless the Christian people of this and other countries hurry missionaries and Bibles to the rescue. The Rev. Dr. Newman rebukes the Rev. Dr. Fowler for such utterances, and cites eminent Methodists in support of the theory that not only the little heathen babies, but millions of grown up heathen, will be saved although they may never see a Bible or hear a missionary. Now, which of the two, Fowler or Newman, is the exponent of the orthodox Methodist doctrine on this interesting point?"

HELP ALL YOU CAN.

Citizens of Nevada who have influence at Carson will do well to exert it in favor of an Insane Asylum at home. They will find themselves actively opposed by Langdon & Clark, and it will take no small amount of effort to pass the Bill. Our delegation is doing all it can, but help is needed. Leading men of Reno will do well to go to Carson next week and help a little, if possible.

EDITORIAL NOTES.

Rural editors who have received bound copies of *Ayer's Almanac*, printed in nine different languages, are now publishing the ready-made puff which accompanies the book, and which reads as follows: "Turning to its contents we find ourselves prepared to discuss the weather with our afternoon caller in English, German, Dutch, Norwegian, Swedish, French, Spanish, Portuguese and Bohemian. We have as yet only perused the English version, and to it we are pleased to give our unqualified indorsement." Let us hope that when they shall have perused the German, Dutch, Norwegian, Swedish, French, Spanish, Portuguese and Bohemian versions, they may be able to give them also "unqualified indorsement."

Harry George's rise to fame has been exceedingly rapid. Little over a year ago the S. F. Bulletin referred to him contemptuously as "Little Harry George." Then he was an obscure journalist; now he ranks as one of the first political economists of the world. His "Progress and Poverty" is being published in all the principal languages of Europe.

The Philadelphia Press differs from the Los Angeles Commercial on silver coinage. In commenting upon an editorial in the Press, its California cotem. says: "The monumental idiot who wrote the above should have a leather medal as the biggest fool in North America."

The population of New York State was 5,083,173 when the late census was taken. Thus a single State of the Union has as many inhabitants as Belgium, and a million more than Portugal. New York spent over ten million dollars last year on public education. The State has 11,899 school houses.

Colorado editors have a vigorous style. The Boulder News says: "We have a rod in pickle for the Leadville Chronicle. Its statement about our telluride mines is such a damnable lie that we don't propose to pass it unnoticed."

Fred De Wolfe, a professor of music, met with a strange death at Eureka, Nevada, last Friday. He had been drinking to excess for several days, and accidentally swallowed a cigar. Ten minutes afterwards he was dead.

"Bread reform" is the name of the latest "league." It has been started in London, and its object is to make war on white bread made of bolted flour, and to induce people to eat bread with bran in it.

The Superintendent of the New York State Insane Asylum reports

that fourteen per cent. of the criminals sentenced to imprisonment for life become insane during confinement.

Senator Conklin eloquently defends in conversation with his friends the character of Mrs. Kate Chase Sprague, and asserts that she is as pure a woman as ever lived.

The Silver State thus thoughtlessly heads an article announcing Senator Fair's election: "The Senatorship Disposed Of." "Disposed Of" is good.

A Cleveland doctor tells of a confirmed drunkard who dug up the body of his daughter and sold it to a dissection for money to buy rum.

The Reno GAZETTE asks: "Who read the most newspapers?" Exchange editors, stupid.—S. F. Exchange. Not Exchange editors, we fear.

It costs three dollars a minute to run the California Assembly.

The smelting works fever has subsided in Carson.

ROUND ABOUT.

Sixfaro and two keno games are running in Carson.

It has been raining hard up north and Sierra valley is under water.

A Chinawoman has brought a divorce suit against her husband, in San Francisco, on the ground of adultery. This is said to be the first Chinese divorce suit ever brought in this country.

Jennie Taylor, who was the only female prisoner in the Nevada State Prison, has been pardoned. She was sentenced to two years' imprisonment, for an attempt to kill, in Winnemucca last summer.

Small-pox was reported in Truckee, but the Republican says the only thing which gave credence to the rumor was a mild case of varioloid, found in a Chinese camp across the river from Truckee.

A Needle Passes Through a Man's Body.

From the Middleton Press.

Wm. H. Ellis, a young farmer living near Bloomington, when nine years of age, stepped on a needle. A doctor failed to extract it and Ellis forgot all about it. He is now 32 years of age, and on Monday morning, feeling a pricking sensation in his right shoulder, said to his wife: "I believe there is a pin sticking in my shoulder." She looked and found the point of a needle just sticking through the flesh. She removed it easily. It was about three-fourths of an inch long and was broken off near the eye. It was discolored except at the point. Mr. Ellis says it has certainly worked up through his body.

Very Likely.

From Henry Ward Beecher's Speech at a Press Club Dinner.

I think if the city of New York were built of glass, so that everybody could see what everybody else was doing, the morality of the city would rise 50 per cent in one year.

Senator Fair.

From the Salt Lake Tribune.

He has the name of being the pleasantest gentleman to meet and the hardest man to circumvent on the Coast.

JOTTINGS.

—The overland trains were on time last night.
—The small-pox patient in the hospital is doing well.
—Masons should not forget the regular meeting this evening at seven o'clock.
—Dr. Hogan will vaccinate the poor free of charge, on Saturday afternoons during office hours.
—Don't fail to go to the Theatre Comique to-night. An immense programme. Ned Tracy on the end.
—There is again talk in Reno of forming a military company. It is hard to see of what earthly use such a company can be here.
—Lila Jamison has a hen's egg measuring nine inches in its greatest circumference. It was laid by a common dung-hill fowl.
—Drunken Indians are again becoming numerous in town. The wretches who supply them with whiskey are likely to get into trouble.
—Lawyers without capital find it difficult to manage suits in the District Court, where they are obliged to pay the Clerk a two-bit fee every now and then.
—Frank Perkins has fitted up a cock-pit in the Palace. The pit is in the center of the billiard room floor. There will be a cock fight there to-night at 9 o'clock.

Personal.

George I. Lammon, General E. S. Davis and Hon. A. J. Shepard are in town.

CARSON LETTER.

Legislative Doings of the Week.

CARSON, Jan. 14.

The Democratic Assembly are not working things as economically as they might; adopting resolutions allowing clerks rooms at the Ormsby, and making it generally pleasant and agreeable for those who are getting nine to ten dollars per day for doing a half or three-quarters of an hour's work. They, in their Bill, appropriated \$90,000 Legislative fund; the Senate cut it down to \$75,000. By the appearance now, the Assembly will get the whole appropriation.

A member in the House asked a Senator when the proper time arrived for the engrossment of a bill. The Senator replied that it should be done before its third reading and final passage. "My God," says the Assemblyman, "we have passed four or five Bills and sent them to the Senate, and thought the engrossment was done after the business was over." In another instance it was moved that a certain question be unanimously adopted. An Assemblyman jumps up with cries of "No, No; I move it be adopted by acclamation." Many amusing things occur of this kind. They are excusable, of course, as everyone is not a parliamentarian.

On Thursday and Friday Bills were introduced in the Senate by Hobart, fixing the salaries of Judges of the Supreme Court, State officers and deputies. These Bills cut the salaries down proportionately; the Supreme Judge from \$7,000 to \$6,000, and each officer and deputy is cut down, and the deputies are appointed to act as clerks for the different State Boards, without extra compensation.

Williams introduced a Senate joint memorial and resolution, asking Congress to take immediate action in reference to Inter-State Railroads. The memorial recites the usual grievances against the C. P. R. R.

Powning introduced a Concurrent Resolution, amendatory of the Constitution, reducing the number of days in the sessions of the Legislature to forty instead of sixty; also reducing the members from seventy-three to fifty. If these amendments are adopted it will save the State each session many thousands of dollars. Powning also introduced a Bill reducing the mileage of members from 40 to 20 cents. This he has since withdrawn. His Bill "reducing employees of the Legislature and fixing their pay" was passed. This Bill saves the State \$8,000 each session.

Perley introduced a Bill for the Construction of a Railroad from Eureka to some point on the Colorado river. It provides for the right of way and is particularly for the benefit of Eastern Nevada, so was referred to the Eastern Delegation.

The Bills introduced and passed in the Assembly, touching the salaries of county officers, so far have only concerned the Sheriffs. The Bills provide them with mileage in criminal cases, and allow commission on licenses. This is no doubt a feather on the Salary Bill. Several Sheriffs have been at Carson this week, and have been deeply interested in this Bill, and, if it is successful, the Assessors will introduce a Bill, and so on to the end of the string. It is strange how soon the officers elected at the late election forget their promises to the dear people, and in a month or two try to crush the law they were elected under. Of course, they try to make out that it is better for them by salary, and, as far as they are concerned personally, they would let it remain as it is, but it is for the people's sake they want the old law. This won't go down. As a general rule men don't work against their own interest. The Assylum Bill is being properly worked up by Senator Powning, with a fair prospect of success. The invitation to the Legislators from Reno will be accepted in the near future, and every member will be willing to listen to the advantages Reno has, and if they are shown that Reno possesses all of the requirements, and can keep the insane as cheap as Langdon & Clark, the project will be favored.

The Legislators' Visit Postponed.

After the GAZETTE went to press yesterday the Reception Committee received a telegram from Carson stating that the legislators would not visit Reno to-day. It was raining in Carson, and it was supposed that the weather would be unfavorable here to-day for the proposed excursion. The visit of the statesmen was therefore postponed. It is expected that they will be down some day of next week.

A DENTAL SOLILOQUY.

To have it out, or filled,—that is the question.
—Whether 'tis better, in the long run, to suffer
The boring and the plugging for a filling.
Or to take the chances on extraction.
And ending by a yank?—To pull; to ache
No more; and by a wrench to say we stop
The tooth-ache, and the thousand natural ouches
That it gives rise to?—'Tis a consummation
Cheap at a dollar and a half. To plug, to fill.
To fill, 'may be to ulcerate; ay, there's the rub;
For in that cursed tooth what pains may come,
After "a solid filling" has been crowded in,
Must give us pause; there's the apprehension
That oft makes teeth part from their parent gum.
For who would bear the loss of precious time,
(Priced nowhere else as in a dentist's chair).
The prodigings round the nerve,—that hell—
The grinding misery of excavation
(For which he would like to kill the dentist
With a big bowie knife, if he had one handy);—
Who in Reno would be so enough
To pay out money for a costly filling
And have his head swell up immensely.
Yet, spite of all, lose his tooth?
The dread of ulceration's what puzzles the will.
And makes us rather bear the aches we have
Than fly to others that we know not of.
Thus dentists do make cowards of us all,
And thus the torture of an aching tooth
Will make a fool of any common man.
And stir his temper up, and make him swear.
W. A. L.

A Stampede of Cattle.

Nearly all the cattle in Paradise valley stampeded last week during a thunder storm. Most of them were French's, who had a thousand feeding there in corrals. The panic-stricken animals ran a long distance. Those which fell down were trodden under foot and killed. Twelve or fifteen perished in this way. There were twelve hundred cattle in the stampede, and at last accounts 200 were still missing.

Stampedes are not uncommon in driving cattle. The rustling of a leaf, causing one animal to jump, will sometimes frighten the whole bunch. There is nothing so contagious as terror. Once started the herd will run with the speed of horses, until thoroughly exhausted. They will break down fences in their headlong flight. The earth trembles under their feet, and the clash of their horns can be heard for miles. While running they hang far out of their mouths. At night the noise made by a large herd of frightened cattle rushing blindly on through the darkness is most impressive. For fear of stampedes it is necessary to keep a careful watch of cattle on a drive. Once started it is impossible to stop, and hard to turn a herd. By riding alongside of the leading cattle and the free use of whip and shout it is possible to get the animals running in a circle, and thus keep them from going far out of the road. A stampede greatly injures the condition of beef cattle, and reduces the weight of a large herd by many thousand pounds.

Crased Through Fear of the Tar Bucket.

The *Silver State* tells a story of a young man named Alonzo Holborn who was made insane through fear of Reno's "601," and has been sent to the Insane Asylum at Stockton. The narrative relates that "Holborn came from California to Nevada about five months ago. It appears that he happened to be at Reno when the Tar Bucket Brigade was driving some offenders out of town, and he was so frightened that his mind became affected. He now imagines that the Tar Brigade is after him, and he appears to be in constant fear of being killed by some persons from Reno." It is more likely that the unfortunate fellow's diseased mind conjured up some imaginary peril from "601" than that he was ever in any danger at their hands. He is not known here, and unless a notorious character, he had no cause to fear the Tar Brigade.

THE PIUTE CENSUS.

The Indian Method of Enumeration By Means of Willow Sticks.

Capt. Dave is in Humboldt Co., taking the census of the Piutes, and the *Silver State* thus describes how he does it: "On a sheet of blank paper, he makes a circle, which, he says, represents a wickiup or camp. Within this circle he makes figures to represent the number of persons in the family. The sexes are designated in the circle so that none can mistake them, the squaws are adorned with lines representing gowns, while the lower extremities of the bucks are left naked. The figures are of various sizes, to represent grown persons, youths and children. When a sheet is filled with these hieroglyphics the Census Supervisor takes willow sticks a from two to four inches in length, with which he keeps a record of the number on the sheet. A full length stick represents a full grown man or woman, the sexes being designated by a notch cut in those representing the women. The shorter sticks are used to designate the size of the younger Indians. When the census of a locality is taken, the bundles of sticks, representing the number of Piutes in the place and their size and sex, are tied up separately. In this way, an accurate census of the Piute tribe in this part of Nevada is being taken, and, to the Indians, the papers with circles marked on them, and the bundles of sticks, are as intelligible as the printed sheets of the Census Bureau are to the whites."

Relief Measures for County Officers.

RENO, Jan. 15.

Editor Gazette:—I would like to call the attention of the Nevada Legislature, through the columns of your paper, to the necessity of doing something for the relief of the County Officers in this State, under the Salary Bill. A County Clerk does not get more than twice as much as an ordinary bookkeeper, and is only allowed an assistant at such compensation as the County Commissioners see fit to give. The Sheriff only receive from \$7 to \$10 per day, and have to pay their own traveling expenses, necessitating the keeping of a horse and buggy, in addition to other heavy expenses which, for the small amount of \$8 per day, is absurd, when any ordinary citizen can get that for one good four-horse team and driver, and have nothing to do but work.

A great many of our present officers were probably not aware such a Bill had been passed, while others allowed their names to go before the conventions through a sense of duty to the parties they belonged to. If they cannot be allowed mileage when in the discharge of their duties, they should at least, be allowed a clerk to do the office work, and a deputy to attend to such outside duties as may be required at a fair salary. Retrenchment is very good in its way, but when officials are expected to attend to their duties for the same salaries as any private individual works for, it borders on the ridiculous.

Notice to the Public.

If the proper authorities do not abate the nuisance which the Indians and others are creating, and which is a disgrace to any well regulated town, in the vacant house next to the one which I now occupy on Centre street, I shall take law into my own hands, be the consequences what they may. Yours Respectfully, WATSON.

A Mill at Peavine.

BY TELEGRAPH.

A Comstock Miner Murdered in Bodie—The Murderer Escapes.

BODIE, Jan. 14.

About 2 o'clock this morning Thos. Treloar, a miner, was assassinated by a Frenchman named James DeRoche. Treloar's wife was attending a ball, and he had ordered her not to dance with DeRoche. She did so, however, to his great annoyance. At the hour mentioned the two men met, and DeRoche shot Treloar through the head, the ball entering just below the left ear. A crowd gathered and the murderer was arrested. At this moment Treloar's wife came along in company with a gentleman and his wife, when DeRoche shouted: "Mrs. Treloar, I have killed your husband!" He was taken to jail, but, upon a pretext that the vigilantes intended to hang him before morning, Deputy Sheriff Joseph Farnsworth took the prisoner to his boarding house handcuffed. During the night DeRoche mysteriously disappeared while Farnsworth was asleep.

An Arizona Stage Attacked by Indians—The Driver and Four Passengers Killed.

SAN FRANCISCO, Jan. 15.

Dispatches from Tucson and Deming report that the stage from Mesilla to Fort Cummings was attacked by Indians last evening, about fourteen miles from Fort Cummings. The bodies of the driver and three men and one woman, passengers, were found mutilated and burnt. The bodies were removed to Cummings. Troops are in pursuit. The Indians are supposed to have numbered about 40.

Fresh Seeds at Home.

R. J. Trumbull & Co., the well-known seedsmen of San Francisco, have an advertisement in the Weekly GAZETTE, calling the attention of Nevada farmers and growers to their superior facilities for supplying fresh and ripe seeds. The firm is a No. 1, and their catalogue can be relied upon in every respect. It is very foolish for Western people to send to the distant East for articles that get mixed or damaged as easily as seeds. Send for catalogue, and read the ad.

If you go to the right place to get them, This is a mighty important point, for some people who assert that they sell cheap do nothing of the kind. We do not boast when we say that we defy competition in prices in anything in our line. Besides this we have only one price. We have no preferred customers. Everybody is treated alike at our establishment. Our stock is the largest and most complete ever offered in any part of this State. Everything we have is new. No old, musty and out-of-date goods can be found on our shelves. We receive daily by rail and express the latest and best goods, which are obtained at first hand and sold at prices below those now prevailing in New York and Chicago. Let the people come and judge of our prices and examine our stock before going into those humbugging, Cheap John shops, in which they drum into the ear of the customer that they sell at cost and even below cost. Anybody with common sense must know that they lie. No storekeeper sells goods for the fun of the thing. We make a profit on everything we sell, as every honest merchant does, and don't print foolish falsehoods in the vain hope of deceiving the public. One must make a profit to live. We particularly call attention to our full stock of fancy underwear, such as is kept nowhere else in Reno. This class of goods form one of our specialties. Orders from the country promptly attended to. Look out for the White Building with the Gold Sign.

ABRAHAMS BROS.

An Advanced Oyster Buyer.

"Goin' to hang up your stocking Christmas!" asked a Chicago man of a Boston girl who is visiting his sister, one day last week. "I shall certainly suspend my hosiery," she said looking kindly at him over her eyes. "because I think the beautiful custom of bestowing upon our friends those things we think they will appreciate, should be adhered to." He put a copy of Emerson's works, Joe Cook's lectures, some annotated lectures on biology, and two boxes of chewing-gum into her blue, but long-stocking last Friday evening, and is now her affianced oyster-buyer.

Brazil inaugurated about ten years ago, a system of gradual emancipation for its slaves, by means of which slavery would cease in 1900. A large number of planters voluntarily freed their slaves, and the movement was popular for a while; but of late a reactionary party has gained strength, and the result is a fresh agitation of the subject.

A Chicago woman broke a kerosene lamp, while drunk, and the blazing oil ran over her. A man undertook to put out the flames, but she furiously fought him off, declaring that the fire felt good, and that it should not be extinguished. She was burned to death.

Capt. Webb, who first accomplished the feat of swimming across the British Channel, has determined to try, next summer, to swim from Holyhead to Kingstown, a distance of seventy miles.

Four days sport on the preserves of Lord Sefton, with six guns, produced 6,844 head of game. This is said to be unparalleled in sport.

THE BOSS!

Edison Outdone.

Over 150,000 Sold.

Patented April 2, 1878, June 11, 1878, and July 8, 1879.

Boss Coffee, Tea Pots & Urns.

It is the Boss! Why? Because it produces Boss Coffee.

It makes rich flavored Coffee! Why? Because it takes all the aroma and food are retained.

It beats them all! Why? Because it saves 100 per cent over boiled Coffee, which is not Coffee, but bitter water. Second—Because it saves 50 per cent over any other method of making Coffee. Third—Because it saves sugar and trouble in clarifying. Fourth—Because it makes Coffee as clear as red wine. Fifth—Because it takes only two minutes to make Boss Coffee.

The Boss works as well on Tea, and saves 25 to 50 per cent.

While Edison may furnish light to millions, the BOSS will assuredly give health to all who use it. Thousands have become dyspeptic and bilious from drinking boiled coffee or BITTER WATER (boiled coffee is not coffee, but bitter water) with coffee (piccolite). Stop drinking boiled coffee. Make your coffee as NATURE ORDAINED, and restore your health. Many inventors have racked their brains to furnish the human family with a practical method of making coffee. At last the HAPPY RESULT has been accomplished in the production of very cheap and simple Pots and Urns celebrated as the BOSS.

To Whom It MAY CONCERN.—After thoroughly testing the BOSS COFFEE POT, we, the undersigned, fully endorse the same as the best method of making Coffee we have ever seen. Besides saving eggs, it will save a large per cent. of the Coffee. It produces Coffee as clear as wine, which is much stronger, and has a more delicious flavor than any coffee made by any other process.
